Local and General

Happenings Here, There and Everywhere, Past Present and Future

Messrs. J. R. Miller, R. R. Dunn, A. Wilson and W. Key were competitors at the Hanna Bouspiel this week.

These men returned yesterday morning with a second prize. It appears that the local boys put up a hard fight for the first place, by tying on the twelfth end and having to play an extra end which was won by the Hanna rink by one point.

A farewell party to Misses Marjion and Agnes Butts, was given at the home of Mrs. Mitchell last Wednesday evening.

A masquerade dance will be held under the auspices of the Chinook Agricultural Society on Friday, Feb. 25, in the Chinook School. Prizes will be given for the best dressed lady and gentleman and for the best comic costume.

Auction sale bills printed at this office.

Several cases of small-pox is reported in the Sedalia district.

Bills are out for the sale of farm stock and implements of H. Chouinard, Sec. 32-24 7, on Tuesday, March 15.

Mr. C. W. Rideout received the sad news last Friday of the death of his father, Mr. F. F. Rideout of Hartland, New Brunswick. Mr. Rideout was 73 years of age, and had he lived till the first day of August he and his wife would have celebrated their golden wedding.

The Oyen Curling Club will hold their annual bouspiel on Monday, Tuesday and Wednesday of next week.

Mr. C. J. Lensegraf, who has been visiting friends in Devonport, Iowa, returned last week.

Miss Marjion Butts left on Monday for Rumsey, Alta., where she has accepted a position as teacher.

Mr. C. R. Budd, of Calgary, spent the week-end with his aunt Mrs. Nicholson.

Miss Clara Henderson, of the Union Bank, Cereal, was the guest of Mr. and Mrs. L. Proudfoot over the week-end.

Mr. Ernest R. Dell, of Ribstone, Alta., is in town this week renewing old acquaintances.

Born--To Mr. and Mrs. Chas. Wylie on Tuesday, Feb. 15, a son.

Don't forget the picture show next Friday night.

You don't have to go to war to be patriotic. Improve your locality, uphold your own, enlarge its interests, and lend a hand to progress, and you are a patriot--a lover of your country, as truly as a soldier who shoulders his musket.

Chinook Curlers Win Prizes At Youngstown

Three rinks from Chinook attended the Youngstown Bouspiel last week and were successful in winning a first, second, third and fourth prizes in different events. Here are the men!

A. Wilson
M. J. Chapman
R. R. Dunn
J. R. Miller--Skip
O. Hinds
W. Key
T. O. Stephenson
Jas. Rennie--Skip
R. L. Baldwin
W. Frazer
W. H. Blaney
A. Campbell--Skip

The weather turning so mild spoiled the play considerably, with the result that some of the good curlers did not have a good chance to show their skill. However, Chinook rinks got their share of the "jewellery" and brought more honor to the Chinook Curling Club by taking four out of the eight prizes in the open events, the remaining four being divided equally between Hanna and Youngstown.

The prizes won by Chinook were: J. R. Miller's rink, first prize, four leather club bags; J. Rennie's rink, second prize, four casseroles; A. Campbell's rink, third and fourth prizes, four pieces cut glass and four boxes of cigars.

Eli Budd's Condition Improves

The condition of Eli Budd, a farmer of the Oyen district, who was shot in the abdomen on Tuesday, Feb. 8, was reported to be much improved. Budd was taken to the Holy Cross hospital, Calgary following the shooting which is alleged to have been committed by a neighboring farmer.

Certificates Redeemable

Holders of participation certificates who did not yet surrender them will be given another chance to redeem them.

Mrs. Callaghan returned home on Tuesday morning after spending several months visiting friends in Calgary.

Mr. and Mrs. J. W. Yake entertained the members of the Chinook Dramatic Club on Monday. The evening was spent in games and music, after which refreshments were served.

Governments as Co-operators

Ten or fifteen years ago the popular demand in connection with the solution of large and grave problems affecting economic and marketing conditions in these Western Provinces was for Government ownership and operation. This demand was, perhaps, most insistently urged in connection with interior and terminal grain elevators. Today, no such demand is made, nor is there any expressed wish for the adoption of such a policy.

The reason for this marked change in public opinion is not far to seek. Manitoba tried Government ownership and operation of interior elevators, and it was far from being a success, either financially or in the character of the service rendered. Saskatchewan, on the other hand, tried the experiment of creating a large co-operative company, composed of the farmers themselves, managed and controlled entirely by farmers, but assisted with the financial backing of the Provincial Government.

From its inception the Saskatchewan experiment has been an outstanding success. That success has been due to the whole-hearted and loyal manner in which the farmers have supported their own institution—something it was predicted they would not do; it has been brought about by notably careful and efficient management; and, lastly, it has been made possible because of the sympathetic treatment accorded on all occasions by the Government, which has placed the resources and credit of the Province back in the control and management of that enterprise.

Saskatchewan has borrowed millions which have been loaned to the Saskatchewan Co-operative Elevator Co., but that Company has met every payment of principal and interest as it has become due, and the Provincial treasury and the Saskatchewan taxpayer has not been called upon to put up a dollar. In addition to these direct loans, the Government has pledged the Provincial credit for other millions by giving guarantees to the Banks for the repayment of loans made direct to the Company. It is an acknowledged fact that without this Government backing, the Saskatchewan Co-operative Elevator Co. could never have succeeded in its earlier years, nor have achieved the fine record which stands to its credit. So successful, indeed, did the Saskatchewan experiment prove to be, that the other Provinces finally adopted it. And co-operative interior elevators have been followed by terminals owned and managed by these same companies.

The splendid results achieved by co-operative elevators led to the formation in Saskatchewan of the Province-wide co-operative creamery company, which took over all the Government owned and operated creameries, and has established many new ones and enlarged the old ones. It is repeating in its field the success of the co-operative elevator companies, and has established cold storage plants, and other subsidiary enterprises.

Next came co-operative stockyards, which are yet in their infancy but which promise to become an important factor in the development and prosperity of the livestock industry in the West.

Co-operative wool marketing is now recognized as the most feasible and best method of handling the wool clip of the West, and has for some years past demonstrated its practicability by obtaining for the sheepmen of the West a higher price for raw wool than could otherwise have been secured by them.

Co-operation between Government and people has also resulted in Saskatchewan in a very rapid extension of rural telephone lines and facilities throughout the Province, bringing the farm home into immediate and direct communication with market towns, doctors and nurses, and removing to a large degree that isolation from which the farm home suffered in the past and which was one of the chief obstacles to keeping many people on the land.

The successes which stand to the credit of all enterprises in the West based on the co-operative principle have resulted in the development of a pronounced public opinion that it was far better not to rely absolutely upon a parental form of government, but, by co-operation of Government and people, build up a sturdy, self-reliant Province and Dominion. Now when a difficulty presents itself, people do not weakly turn to Governments with demands that they solve the problems for the people, but the people themselves tackle the problem and, with Government assistance, are proving their ability to solve and overcome their difficulties.

Another valuable feature of this adherence to co-operative principles and methods is found in the practical training being afforded thousands of farmers' sons in the conduct and management of large business enterprises. The value of such training can hardly be over-estimated, and is having its effect in the adoption of more business-like methods in all departments of the farm, resulting in the saving of countless thousands of dollars in many small ways to the farmers in their own operations. Strict business methods are replacing slipshod ones while at the same time the man on the land is kept in close touch with world conditions and markets, and is steadily securing a larger grasp of those economic forces which have a direct bearing on the price of his product and his resultant prosperity.

U. S. Bank Failures

Many Canadians will be surprised to read in connection with two of the latest failures of banks in North Dakota that the capital of one is given as \$25,000 and of another \$10,000. This capitalization looks extremely small to Canadians who are familiar with banks capitalized at sums running into the millions. The American public has been to encourage the little banks on the theory that a multiplicity of banking institutions would give an elasticity to credit and make it easier to do business.

The result has been the creation of hundreds of local banks, working on local capital, as contrasted with the Canadian system of great banking institutions, with a central organization and branches in a score of cities and towns in every province. In a period of depression scores of these small banks in the United States close their doors. Such a condition cannot but add to the panicky feeling that exists at a time when there is restricted business, unemployment and a conserving of credit. From this distance it looks as if a bank with a capitalization of \$10,000 was too much of a gambling proposition. In good times it might be all right; in hard times it becomes a menace.

Banking is a business that requires stability and the little bank, with no reserve, can hardly guarantee it.

—Winnipeg Free Press, Jan. 31, 1921

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yateam, Krugersdorf, Ont., writes:—"I feel that I must write and tell you of the great benefit I have received from Millburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and spinning spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get it better, although the spinning spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day, noticing the advertisement of Millburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I had taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise anyone troubled with their heart to try them, as I am confident they will find relief."

Americans are eating 8 per cent. less meat than they did 20 years ago.

Rheumatism Relieved in 1 to 3 Days. South American Rheumatic Remedy is a powerful medicine in the treatment of acute or inflammatory rheumatism, chronic rheumatism, lumbago, radiculitis, and all ailments due to rheumatism. It often cures in 1 to 3 days. At drug stores.

Compared with his bulk when grown up, the kangaroo is smallest when born. A baby kangaroo is only the size of a man's thumb.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Savings Of the World

Are Estimated at \$13.58 Per Capita For All Countries.

If all the money in the mutual, stock and postal savings banks in the world was equally distributed among the inhabitants of the globe, every man, woman and child would have \$13.58, according to statistics issued by the Savings Bank Association of the State of New York. The same authority shows that the 146,277,394 small savers of the world have on deposit \$23,123,285,677, a sum greater than the combined wealth of Germany, Austria, Hungary, Turkey and Bulgaria. The average deposit account the world over is \$158.08.

Many clerghymen in London, it is said, are paid lower wages than the street sweepers.

World Happenings Briefly Told

Mrs. Ralph Smith refused the speakership in the B.C. Legislature.

New York retailers are stated to be making 30 to 40 cents profit on eggs.

The Zeppelin aircraft will be offered to other countries for commercial purposes.

The recent drop in grain quotations in Britain's expected to reduce the cost of living.

Twenty-six deaths out of 125 cases of sleeping sickness have occurred in New York.

Timber valued at \$1,000,000 has been destroyed by fire at Port Angeles, Washington.

Kansas miners of coal are striking because of the arrest of the president of their union.

Deported aliens from the U.S. plotted against Austria on board ship en route for Europe.

The Duchess of Marlborough, formerly Consuelo Vanderbilt, is preparing to leave England for good.

Ontario sheep breeders have passed a resolution calling for all cloth to be stamped as to quality.

Mrs. Edith Rogers, first woman M.L.A. for Manitoba, will second the reply to the speech from the throne.

E. H. Devlin, former member for Kinsistino in the Saskatchewan Legislature, died recently at Hot Spring, Arkansas.

Losses in stolen baggage sustained last year by the five railroads with terminals in New York City were over \$5,000,000.

Sudbury, Ont., has engaged the services of a health nurse to work among the families who are not receiving proper medical attention.

A wireless telephone system to be used for communication with police patrol wagons throughout the city is being installed at Dallas, Texas.

Brantford, Ont., army and navy men are refusing to wear Armand Lavergne's term "British mongrels" in reference to immigrants from the British Isles.

Sugar in Newfoundland is still retailing at 25 cents a pound. The Government bought enough to last until next June and cannot relax control without loss of \$120,000.

Preliminary arrangements have now been completed for the second Imperial conference of Teachers' Associations, which will be held in Toronto on August 10 to 13 of this year.

The need for sympathy, understanding and friendly co-operation between the United States and Great Britain, was the dominant note at the opening of the convention of the Junior League of America in Montreal.

The British Foreign Office issues a statement declaring to be without foundation reports published in the United States to the effect that an official of the Foreign Office had uttered a warning of the increasing seriousness of Anglo-American relations.

Public baths abound in Japan and the poorest citizen bathes usually twice a day.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Unauthorized Use of Name of Dominion Express Company.

Persons unknown are reported to be soliciting subscriptions for advertising space in a magazine representing it as being issued by or in the interest of the Dominion Express Company or its employees.

Upon being interviewed the management of the Company stated they had no knowledge of the magazine or its promoters, and that any representation connecting the name of The Dominion Express Company with such an undertaking were unauthorized.

Home Made Bread

Home made bread is without doubt the cheapest and most healthful food that can be produced for human consumption. It is the most completely digested solid food in the world, over 90% of it being transformed into health and strength. It yields nearly twice as much nourishment as rice or potatoes, and is ten times as nourishing as an equal value of meat. No bread is more truly wholesome or more perfectly satisfactory than that baked at home in which Royal Yeast Cakes are used.

Scientists have discovered a new and truly wonderful use for Royal Yeast Cakes. Physicians are prescribing it with remarkable success for conditions attributed to poor blood conditions. Soak a cake of Royal Yeast for half an hour in a cup of lukewarm water with one teaspoon sugar. Then stir well and strain once or twice through muslin and drink the liquid. BETTER results will be obtained by allowing it to soak over night and drinking half an hour before breakfast. Repeat as often as desired. Send name and address for free booklet entitled "Royal Yeast for Better Health."

Employment Service Has Proven To Be Valuable Economic Step

One of the problems continually engaging the minds of the governing bodies of every country, without exception is that of employment and the even distribution of labor, ensuring work for all citizens. It is only too common an occurrence to find one district in the land suffering from a surplus of workers, whilst some other point is experiencing a dearth of labor, and employers are at their wits' end to secure men of a certain calling.

It is a valuable economic measure to bring these two localities together and satisfy the needs of both, and in many countries the agency to accomplish this is still lacking. The worker out of employment and the employer seeking help must in some way be brought together, and in Canada, until a few years ago, the only media existing were private employment bureaux supported by the fees exacted from employer and employee. Besides being only purely local affairs, these bureaux operated in such a way as to give rise to a great many abuses and occasioned a great amount of general dissatisfaction.

The problem of unemployment in Canada was largely solved by the institution by the Federal Government of Government Employment Bureaux operating without expense to those using them and maintaining a connected system of offices across Canada from coast to coast. This is the private employment agency, which was followed up by legislation in the different provinces making them illegal to operate.

The service was established in anticipation of the return of the troops from overseas and the problems of employment which would confront them. The scheme evolved has worked out uniformly successful both as to returned soldiers (to whom, after demobilization, preference was given in the occurrence of vacancies),

and civilians. Through its operation a system of exchange from one part of Canada to another, which was long needed, has been brought about, moving men from inactive districts to those where conditions were active, and so reducing unemployment throughout the country to a minimum.

The employment service, as evolved by the Dominion Government and fully supported by them, arranged for the establishment of seventy-five employment offices, conveniently situated in every province. These are in constant daily touch with each other and with the headquarters at Ottawa, so that the superintendent of any provincial bureau is fully conversant each evening with the employment situation in every other station. The superintendent of a bureau is in constant receipt of applications from employers for workers and from workers for situations.

That the service, since being put into operation, has been highly successful and is deeply appreciated by the thousands of male and female workers who have made use of its medium to secure employment, cannot be doubted. The figures of newly applied applicants and placements evidence the extensive use being made of it. During the month of October, for instance, there were 37,732 applicants for work who registered with the various bureaux throughout the Dominion. A total of 34,201 employers sought its aid in completing their staffs.

In this period, the many bureaux constituting the service from coast to coast accounted for 29,978 placements of applicants in regular employment in addition to other thousands placed in merely short-time, temporary positions. A great part of Canada's army was re-established in civil life through the aid of the service, which has undoubtedly played its part in the Dominion's post-war economic adjustment.

A German Letter

Calls on all Cultivated Nations to Urge the Early Release of German Prisoners.

Of the presumptuous audacity of the German there is no end, says the Calgary Herald.

The latest example of this is a letter that has been sent broadcast to the press of England and this continent which calls on all cultivated nations to urge the early release of German prisoners convicted of crimes in France and to give close inspection to the so-called French civilisation.

Canadian soldiers who were prisoners in Germany, who enjoyed the excellent fare there provided, the tender consideration of the German people and saw the charming fruits of the German civilisation, will best appreciate this pathetic appeal. It is issued by the board of the German National Union "Save The Honor." The name sounds like a joke, but the Germans take it seriously.

The Herald is advised in this communication to print the contents of it in a conspicuous place in the paper and to send a copy to the "Save The Honor" union so that they will know they are to send us their future publications. We shall deny ourselves that privilege. Our copies can go to one of those Canadian publishers whose sympathetic souls have been wrenched by the Allies' frightful treatment of the Germans in the reparation matter.

Department of Soldiers' Affairs

New Plan Would Expedite the Handling of Problems Pertaining to Veterans.

The department of soldiers' civil re-establishment, the pensions and soldiers' insurance branches, and other branches dealing with returned soldiers' problems, are likely, it is rumored, to be amalgamated into one department of returned soldiers' affairs. The creation of such a department receives considerable support on the ground that it would expedite the handling of returned soldier problems. If created, it would probably be headed by a deputy minister working under the general supervision of one of the existing ministers.

Hemp Industry in Manitoba

Object is to Build up a Hemp Industry with Winnipeg as its Headquarters.

One thousand acres of hemp will be planted in Manitoba this year, according to the managing director of the Canadian Fibre Company, who is in the province, probably in the Swan River or the Dauphin district to launch the season's production. "Our ultimate object is to build up a hemp industry with Winnipeg as its headquarters which will produce burl, twine and coarse fabric and later fine linen and vegetable silk," continues the manager of the new company. "This year we will only seek to test out the best kinds of seed and ascertain the best areas for growing hemp. Actual planting will begin about the first of May."

Arrangements are being made for the purchase of seven hundred and fifty bushels of seed, which will be imported from Kentucky and distributed among farmers under contract for fibre production. The company will supply the seed at cost price, supervise the growing and cutting of the crop, and then take the cured product off the farmers' hands at \$15 a ton.

If this experiment is successful, it is intended that the Manitoba plant will be the first of a series extending over Saskatchewan and the other western provinces. It is proposed to market this year's crop in Great Britain and Eastern Canada and to devote attention entirely to the raising of hemp fibre until a manufacturing plant is ensured.

Salvage Grain From Peace River.

In order to salvage as much as possible of the damaged oats in the Peace River country and make it possible to dispose of this grain with some prospect of compensation to the farmers, an arrangement has been arranged at between the Provincial Government and the officials of the Canadian Pacific Railway providing for the shipment of this grain over the system to a drying plant at Edmonton with a rebate of fifty per cent. on the regular freight charges.

German Admiral Dead.

Admiral Count Friedrich von Baudissin, former chief of the German admiralty staff, is dead. Admiral von Baudissin at one time was personal admiral to the German emperor and for three years commanded the Imperial yacht. He was 69 years of age.

Mr. John Stovel

President of the Stovel Co. Printers, Engravers and Lithographers, Winnipeg. Mr. Stovel is a member for Winnipeg in the Provincial Legislature.

To Test Value Of Aircraft in War

Huge German Dreadnaught Osfries—Land to be Destroyed by U.S. Naval Airmen.

Participation by the United States War Department in a series of experiments to determine the value of aircraft against major naval vessels, was invited by Secretary Daniels in a letter to Secretary Baker.

The first test will be conducted within the next 90 days, Mr. Daniels said, and conditions approximating as closely as possible those of battle will be simulated. The captured German battleship Osfriesland, 26,500 tons, probably will be used for the first experiment.

Admiral R. E. Coontz, chief of naval operations, prior to the making "Public of Secretary Daniels' letter, told the House naval committee that within the next three months the navy would bomb a large warship from the air in the open sea, to test the theory advanced by Brig. Gen. Mitchell, of the Army Air Service, that airplanes had made capital naval vessels useless.

Representative Mondell, of Wyoming Republican, floor leader, who preceded Admiral Coontz on the stand, warned the committee that unless expenditures for military establishments were cut down, some of the larger nations of the world would be driven to bankruptcy.

The United States should take the lead in disarmament, declared Mr. Mondell, adding, "If an agreement is not reached for the limitation of armaments and war-like expenditures in the near future the fault will be that of the United States, as in former days the fault was that of Germany."

Goat Industry Expanding

B.C. Goat Breeders' Association Say Industry Has Come To Stay.

Mr. W. H. Cottrell, president of the British Columbia Goat Breeders' Association, at the annual meeting of the association held at Vancouver recently, asserted there was no doubt whatever but that the industry has come to stay and that in spite of many handicaps it is making remarkable progress. Further, he said, British Columbia is far ahead of any other portion of the Dominion, and will maintain that position. Other provinces look to British Columbia for their stock, and with the ideal conditions obtaining here for the raising of good goats there need be no fear as to the future. The trend is now and more towards keeping better stock, and members were striving to maintain their herds at a high level of quality, and by careful buying and breeding, feed and care, are making good progress. This was particularly in evidence at the various shows held during the past year, which were of considerable value in instilling a spirit of healthy rivalry and emulation.

Italian War Dogs

St. Bernards Largely Used To Transport Water Carts To The Men.

While the French and English were using dogs in very large numbers the Italian army likewise was having interesting experiences, there being said to be 15,000 highly trained animals, many of them being St. Bernards in that service. They were largely used to transport water carts to the men building military roads and as pack animals for the transportation of ammunition and guns and food to the men on the fighting peaks. If the snow was soft on the mountains, ski runners would go ahead to break out the path.

Bituminous Sands Of Northern Alberta As Source of Crude Oil

In the district of Fort McMurray, some 200 miles north of Edmonton, occur vast deposits of bituminous sands, popularly referred to as tar sands. These have long attracted attention, being exposed for many miles along the cliffs eroded by the flow of the Athabasca River. The area of occurrence of the deposits is vast, that indicated by exposures being estimated from 750 to 1,000 square miles with probably wide extensions under heavy cover. The outcrops along the main river and the tributary streams have been estimated by S. C. Ellis of the Dominion Government Department of Mines, as 175 miles in length.

Along these exposures the overburden varies—on some stretches it is reported as too heavy to allow of commercial development, but on others it is comparatively light or easily removable, consisting of shales and sandstones. Ellis estimates that about 30 per cent of the exposures are of commercial interest owing to the comparative cheapness with which the bituminous sand can be won, and that systematic boring would, no doubt, disclose many other localities where overburden was sufficiently light to allow of development at reasonable cost.

Analysis of 72 samples made in the Department of Mines gives the bituminous content of the sands as from 12 to 17 per cent, and the quantity available will be enormous, even provided it were confined to the development of only 20 per cent. of the now known exposures reported upon by Ellis as commercially interesting.

In some of the exposures where there are partings of foreign material, shales, and shales of bituminous nature, the horizontal parting planes, drawn to the surface by action of the sun. Up to within a few years ago it was generally considered that the commercial value of these important deposits was confined to their use as paving material, and for this purpose they are undoubtedly suitable and will be so utilized when transportation facilities and growing population create a demand within a reasonable radius of distribution. An

experimental section paved in the city of Edmonton was opened to traffic in August, 1915, and is reported as still being in satisfactory condition at present date, thus determining the suitability of these deposits in this respect.

The approaching exhaustion of the many producing oil fields of the United States, disturbed conditions in the oil fields of other countries, combined with the enormously increased demand for crude oil and its by-products throughout the world, are gradually attracting attention to these bituminous sand deposits and the possibilities they offer as an enormous source of crude oil, fuel oil and their derivable by-products.

Germany, realizing the value of these deposits, and in pursuance of their well-known policy to corner the raw materials of the world, sent chemists to Alberta and secured some leases in 1913, the war, however, putting an end to their activities in this direction. Provided, therefore, that no new and important oil fields are brought in to supply the world's demands in the near future, there can be no doubt that the value of these deposits as a national asset will increase. The price of crude and fuel oil at time of writing is 56 cents and 17½ cents an imperial gallon f.o.b. Montreal, respectively, and is rapidly approaching a figure at which it would be commercially possible to develop the vast supplies held in these sand deposits.

The total known deposits have been estimated to hold some 30,000 million barrels of oil. This figure is startling and is quoted here as giving some idea of the magnitude of this resource, rather than for any practical value of such an estimate. One important problem remains to be solved. It is to find a practical method of separating the oil from the sand particles which it coats and impregnates. The solution has already been found on a laboratory scale. The moment that crude oil reaches a price that will pay for commercial recovery of these supplies now held in the shales and sands, it will undoubtedly see the commercial solution of all such technical difficulties.

China Famine Relief

Premier Urged To Appoint National Committee.

A strong appeal for national assistance on the part of Canada to China under her present distressing famine conditions was made to Premier Meighen by a deputation consisting of members of the Canadian Famine Relief Committee. It was urged that Canada should follow the example of the United States and appoint a national committee and that there should be a generous grant from the poll tax on Chinese who entered Canada last year. It was also suggested that the government consider sending wheat or flour to China, that the farmers be appealed to to contribute grain, and that free transport of these supplies across the country be provided.

The premier replied that information at present at hand regarding China did not lead the government to the conclusion that it ought to assist. However, it would consider the further information placed by the deputation.

What Is a Tree?

On the subject of "Vision," Dr. Greville MacDonald at the City Temple Literary Society, said that a child wrote of a tree—

"It is a lot of sticks stuck on another stick stuck in the ground, and it has roots like a wormy stick that hold it in the ground, and its leaves never stick on in the winter."

The Medicine of the Gods.

Laugh whenever there is opportunity. The sages of the ages have advised it. The wits of the world freely provide that food. Laughter is good. It is healthy. It helps that good digestion to wait upon appetite. The wholesome chuckle is better for the liver than a bottle of canned power. And it doesn't cost a penny. That's something, too, in these trying times.—Toledo News-Bee.

Why a horse rises from the ground on its forelegs and a cow on its hind legs has never yet been explained.

Advices More

Intensive Cultivation

Mr. Noble Advocates Smaller Farms With Greater Tillage.

"Scientific farming on a small scale would bring bigger profits to the western farmer and quicker development for the country," C. S. Noble, of Nobleford, Alta., largest individual farmer in the west, declared in an interview recently.

"Farmers in the west have cultivated large areas simply because the land was cheap. But we must get away from the idea of so many acres and turn our attention to the number of bushels per acre to get the best results," he said. "Under present labor conditions, the man who extensively cultivates a half section will make greater gains than the large farmer. A big population of small scale farmers, who are personally interested in the land, will bring prosperity to the prairies."

Mr. Noble has 33,000 acres under cultivation and has been a successful large scale farmer from the start. "It takes many years to develop a large farm to a profit basis of operation," he said.

Drigibles at High Altitude.

A force of dirigibles to operate at an altitude of six miles is one of the outstanding features of the U.S. aviation programme which army officials are now urging upon congress as a substitute for continued huge expenditures for battleships, Brigadier-General Wm. Mitchell, of the army air service, informed the United Press.

Whales From British Columbia.

Four hundred and thirty whales were caught by Vancouver Island whalers during 1920. The whales were taken to the rendering plant at Kyequot, British Columbia.

Ships For Trans-Pacific.

The president of the Canadian Dollar Steamship Company is on his way to England where he intends to purchase two additional steamships for the trans-Pacific routes.

Where Coal Is Plentiful.

Two and one-half million tons of steam coal were shipped from the Leithridge and Crow's Nest Pass mines last year.

Win Many Dairy Awards

Prairie Provinces Set High Standard For Creamery Butter.

That the prairie provinces can produce butter the equal of any in the Dominion of Canada has again been proved, at the all-Canada creamery butter competition held at Winnipeg, Manitoba.

Central Saskatchewan has won a signal victory in the competition for the quality of butter produced this season, winning the first five prizes for the highest average scores. The winning creameries are as follows: Birch Hills, 95.23 points; Shellbrook, 95.19; Prince Albert, 94.87; Lloydminster, 94.86; P. Burns and Company, Prince Albert, 94.82.

In another competition a Saskatchewan farmer carried off second place, while five Alberta entries were in the prize list. In the inter-provincial butter making championship open to Western Canada, Manitoba, for the second year in succession, carried off the championship cup.

Pulp in Alberta

Plenty of Pulpwood to Justify Erection of Mill.

T. A. Burrows, owner and manager of the Phoenix Lumber Company of Manitoba and Saskatchewan, in speaking recently of the pulp industry of Alberta, stated that there was plenty of pulpwood along the Saskatchewan River west of Edmonton to warrant the construction of a large mill. He pointed out that before these lumber resources could be utilized it would be essential that power be developed along the Saskatchewan River at Rocky Mountain House or some other favorable location. Commenting on this phase of the industry he stated that the development of the pulp industry had proven conclusively that water power was necessary to make the industry a success, and he expressed the opinion that there was plenty of water power.

The Limit.

"Ma, teacher's awful mean." "Hush, my son, you mustn't say that." "Well, she is! What do you think?" She borrowed my knife to sharpen a pencil to give me a bad mark."—Boston Transcript.

Coal Output on Vancouver Island.

The output of coal on Vancouver Island last year was 1,801,721 tons, an increase of 102,383 tons over 1919.

MOTHERS!

Watch your children's skin. As soon as you see the slightest trace of a rash or sore, apply Zam-Buk. This antiseptic balm will protect the sore place from infection, prevent it from spreading and healing soon follows.

Careful mothers always keep Zam-Buk on hand for their children's injuries—it ends pain so quickly and prevents any possibility of festering. Best for cuts, burns, sores, bruises, ringworm, scalp sores, eczema and teething rash. All dealers see box.

Zam-Buk

From the Land of Wealth

200 Russians Returning Home With \$500,000 From U.S.

With a total of nearly \$500,000 in their purses and \$250,000 worth of jewels, 200 Russians, who arrived in Boston seven years ago as poor immigrants, are about to return to their native land and expect to spend the rest of their lives in ease. They will sail for Libau and proceed on horseback to the interior, where their families await them.

For Both Horse and Stable—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Will Reimburse German Sailors. German sailors thrown out of employment by the delivery to the allies of the German merchant fleet are to be reimbursed to the extent of 60,000,000 marks. Two-thirds of the sum is to be paid by the shipowners and one-third by the government. An agreement to this effect was reached after two years' negotiations.

Heart Disease Relieved In 30 Minutes. Dr. Agnew's Remedy for the Heart gives perfect relief in all cases of transient or Sympathetic Heart Disease in 10 minutes, and cures in 30 minutes. It is a powerful remedy for palpitation, shortness of breath, smothering spells, pain in left side, and all symptoms of a diseased heart. One dose cures.

To Visit England. The merchants division of the Vancouver, British Columbia, Board of Trade are planning an excursion to England during the coming summer.

Canada has the largest forest in the world. It is in the Hudson Bay region and is roughly 1,000 by 1,700 miles.

ECZEMA

You are not so unfortunate when you use Dr. Chase's Ointment. It relieves at once and gradually heals the skin. Samples of Dr. Chase's Ointment free if you mention this paper and send no money. Write to Dr. Chase, 101 Adelaide St. East, Toronto.

Plays All Records —exactly as they should be played

Let the Brunswick be your 1921 Phonograph because it is the one COMPLETE Phonograph.

It plays every make of record with the correct needle, the precise diaphragm, and the exact weight.

Nothing to take off or put on—no needles to change.

With your Brunswick you get the famous ULTONA which is equipped with a genuine diamond-point for Edison Records; genuine Ceylon Sapphire point for Pathe Records; and steel needles for Brunswick, Victor, Columbia and all other steel needle records.

Find Out Why

the Brunswick is the best phonograph value. It costs you nothing to know the facts. Send us the coupon for interesting booklet by Henry Purfoot Eames, L.L.B.: "What to Look for in Buying a Phonograph."

Without any cost to me whatever, please send Mr. Eames' Booklet.

Name _____ Address _____

Sale of Alberta Herefords in Chicago

Prizes Realized for the Total Herd Averaged \$450 a Head.

An entire shipment of more than fifty head of Hereford cattle from the Curtice Cattle Company of Peace Valley, Alberta, has just been sold at Chicago. The prices realized for the total herd averaged \$450 a head. Several particularly choice animals fetched more than \$1,000.

It is interesting to note that 'eighteen head of the best cattle from this sale were purchased by a Chicago firm who have a large ranch almost adjoining that of the Curtice Company and intend shipping these animals back to Alberta where they will become the nucleus of another Hereford herd. With such stock as this for a foundation, this should soon grow into one of the best herds of Hereford cattle in the province.

A Sad Tragedy

It often happens—your sore corn is stepped on. Why not use "Putnam's Corn Extractor." It relieves in one day. Absolutely no pain with "Putnam's." Use no other, 25c a box.

To Spend \$100,000,000.

The Vice-President of the Canadian Pacific Railway, western lines, announces that colossal repairs and betterments to the amount of \$100,000,000 are contemplated this spring, but that new lines and track extensions must depend on developments on financial and labor conditions as they may arise during the spring and summer.

Relieves Asthma at Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is a reliable remedy for asthma! Your dealer can supply you.

On some of the Greek islands where the people earn their living by the sponge fishery, no girl is allowed to marry until she has brought up a certain number of sponges, which must be taken from a certain depth.

A square foot of honeycomb contains more than 9,000 cells.

Minard's Liniment, For Colds, Etc.

Expenditure \$20,455,459.

Total expenditure incurred by the Department of Public Works during the fiscal year 1919-20, according to the annual report of the department, was \$20,455,459. Of this sum \$4,337,127 was charged to war appropriations.

Old Mine Opened.

The St. Anthony, one of the famous old gold mines of the Fort Arthur district, has been pumped out and is being operated again by a syndicate under the management of C. P. Charlebois, Toronto. Results are said to be encouraging.

After-Theatre Suppers

BY LORETTA C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

What is so delightful as the little surprise supper when you come home on a winter's evening from the real theatre or the little motion picture house just across the corner? With the prices of restaurant foods today, only the very prosperous can indulge in the after-theatre suppers offered by the best restaurants.

What to have is the next consideration. Perhaps sandwiches and hot cocoa will settle the question very nicely. And it is well to have the sandwiches prepared and the cocoa made before leaving.

There are a number of appropriate fillings: A delicious filling is made of bouclée sardines mashed to a paste and mixed with finely chopped, hard-boiled eggs. A few grains of cayenne give just the right seasoning. Cream cheese, chopped olives and walnuts spread on thinly sliced brown bread makes another inexpensive filling. Canned shrimp or crab or lobster or tuna, finely chopped, seasoned with mayonnaise, makes a well-filled filling, but is a bit more expensive than those previously suggested.

Sandwiches keep fresh if wrapped in waxed paper and then placed in the refrigerator. In fact, sandwiches so stored might be made the day before. This is sometimes desirable when a large number are to be served.

Salads, too, are appropriate for serving late at night. Good salad can be made from first quality canned chicken when freshly cooked chicken is not available. Cut the chicken into half cubes with a sharp knife. Add an equal quantity of diced table celery. Set this away in the refrigerator. Clean the lettuce and place it in a covered tin can in the refrigerator. Chill the plates. When the time comes to serve, moisten the chicken and celery with mayonnaise and place on leaves of lettuce on the chilled plates.

Hot coffee is frequently served with cold salads. Make it, arranging to free it from the grounds before leaving home. It will take but a moment to reheat it when it comes time to serve.

At a supper in one of the large metropolitan hotels the other evening I tasted a salad that some hostess looking for something new and most palatable will want to serve. The salad was termed Salade Archduke. On a leaf of lettuce there was a parallel arrangement of strips of brilliant red pimento, soft, yellow-tinted asparagus tips and cool green, strips of skinned alligator pear. This arrangement was repeated until the well-trimmed leaf of lettuce had been entirely covered.

The chafing-dish offers splendid opportunity for after-theatre snacks. Whatever you intend making, be sure you have as much as possible prepared beforehand. The butter called for should be measured on the tablespoon and then rolled into a ball of cold water. If toast is required it may be made beforehand if care is taken that it toasts but slightly. Reheating for a moment will make it just right. Other ingredients should be measured and set aside.

Be sure that your chafing-dish is in working order. Many a little party has been spoiled because the hostess discovered at the last moment that there was no alcohol in the lamp or that the electric connection was out of order.

Cake—either cut cake or individual cakes—are appropriate. But these should be of the plainer varieties. Elaborate pastries is not appropriate, especially just before going to bed.

Needed It.

"How old did you say you were?" "I've seen 18 summers."

"Ever have your eyes examined?"

Toronto's Population 597,386.
Toronto's 1921 population is 597,386, according to an estimate recently made public. The city has 1,902 streets and 121,311 buildings.

The Silent Poor.

Real poverty is silent.—The kind that trumpets its needs is often a counterfeit composed of indolence or some similar distemper of the soul.—London Daily Express.

Minard's Liniment For Distemper.

Ireland spends less per head on drink than any other part of the United Kingdom.

A Man is just as Young and Strong as His Blood

No man can fight the battles of life and hold his own if his blood is not pure, for rich, red blood is what strength is based upon. When you see a strong, vigorous man, who never knows when he is licked, you may wonder that such a man has coursing through his veins rich, red blood. Many people have thin, pale blood. They are weak, tire easily, become discouraged quickly, and sometimes feel like giving up the struggle. Such folks need Dr. Pierce's Golden Medical Discovery, which is sold by druggists in liquid or tablet form.

Send 10 cents to Doctor Pierce's Invalids' Hotel in Buffalo, N. Y., for a trial package of the tablets. NAGARA PALM, Ont.—"I have used Dr. Pierce's Golden Medical Discovery at times for the past three years with wonderful results, and I take great pleasure in saying a word to boost the cause of 'Freedom from Illness.' I am a pressman by occupation, and I am quite fatiguing and nervous to the system, but since taking the 'Discovery' business has no drawback for me. Three cheers for Doctor Pierce's medicine!"—WILLIAM H. DEMPSEY, JR., 32 Bridge Street.

Her Lasting Job.

Willie—I think Peggie will make a fine wife. I have been calling on her for six months now and nearly always found her darned like my father's socks.

Reggie—That caught me, too, until I noticed that it was always the same socks she was trying to darn.

A WOMAN'S RIGHT TO GOOD HEALTH

Most Troubles Affecting Women Are Due to Poor Blood.

To every woman belongs the right to enjoy a healthy, active life; yet nine out of ten suffer from some form of bloodlessness. That is why one sees on every side pale, thin cheeks, dull eyes and drooping features—sure signs of headaches, weak backs, aching limbs and uncertain health. All weak women should win the right to be well by refreshing their weary bodies with the new, rich, red blood that promptly transforms them into healthy, active women. This new, red blood is supplied by Dr. Williams' Pink Pills, which reaches every organ and every nerve in the body. Through the use of these Pills thousands of women have found benefit when suffering from anaemia, indigestion, general weakness and those ailments from which women alone suffer. Among the many women who tell of the good Dr. Williams' Pink Pills are Mrs. L. H. Hicks, Round Hill, N.S., who says: "I became very much run down in health; my blood seemed weak and watery, my strength failed, and I was so easily tired that my work was a burden. I had often read about Dr. Williams' Pink Pills and decided to try them, and I can truly say that after using three boxes I found myself gaining, and under a further use of the pills all my old-time energy and vitality was restored. Out of my own experience I can strongly recommend these pills to all women who are afflicted with this medicine."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

47,000 Miles of Films

Export Alone From United States Amounted to That.

Motion picture films sent out of the United States in 1920 aggregated 47,000 miles in length or nearly enough to extend twice around the globe at the equator, and increasing films were nearly half as much in length. These tremendous figures, says a statement by The National City Bank of New York, illustrate the bigness and constant growth of the motion picture industry of the world and especially of the United States, which is by far the largest manufacturer of films and, by far, the world's largest exporter of films both exposed and unexposed.

An Attractive Dress of Black Net

By Gertrude Berensford.

The all-black dress always attracts certain women who realize that their beauty is greatly enhanced when attired in black. This model is fashioned from fine black net over a foundation of black crepe satin. The bodice shows the swathed lines that are quite popular at this time. The V-shaped neck opening is very pleasing, while the sleeves are wide and hardly full-length. The rather bouffant, curved side panels are trimmed with crepe ribbon. This mode or ornamentation is also apparent on the loose sleeves, while the neck opening is accentuated by similar trimming. Should a touch of color be desired a garland of flowers might be used as a girde.

Use Wireless Telephone.

A wireless telephone, to be used in the transaction of business, has been installed by the Pittsburgh chamber of commerce. The radio telephone connects with 300,000 operators within a wide area, surrounding Pittsburgh.

At present there is no metal currency in Turkey.

State of Ohio, City of Toledo, Lucas County—
Frank J. Cheney makes oath that he is a resident of the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for any case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1921.
J. A. W. Gleason, Notary Public.
HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system.
Druggists, 75c. To be had free of charge, by mail, from Dr. J. C. Hall, 219 N. 3rd St., Toledo, Ohio.

Salmon Pack For 1920.

The total salmon pack for British Columbia during 1920 was 1,187,616 cases. There are 48 one pound tins in a case or 96 half-pound tins.

Minard's Liniment For Garget in Cows.

The human body contains as much phosphorus as 5,000 boxes of matches.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

The Wife Scored.

The husband, who had a great habit of teasing his wife, was out driving in the country with her, when they met a farmer driving a span of mules. Just as they were about to pass the farmer's rig the mules turned their heads toward the auto and brayed vociferously.

Turning to his wife, the husband cuttingly remarked, "Relatives of yours, I suppose?" "Yes," said his wife sweetly, "by marriage."

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holrow's Corn Remover.

More English surnames begin with "W" than any other letter.

Mau, mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

Quickly Conquers Constipation

Don't let constipation poison your blood and curtail your energy. If your liver and bowels are clogged, don't work properly. Take CARTER'S Little Liver Pills today and your trouble will cease. For dizziness, lack of appetite, headache and blotchy skin—constipation can equal them. Purely vegetable. Small Pill—Small Dose—Small Price.

Long Sail to Reach Australia.

Interesting facts are being brought to light in an investigation of how Japanese have surreptitiously entered Australia.

One Japanese who had been charged with being a prohibited immigrant, stated that he and two others had built a boat 30 feet long at Singapore, and after a voyage of 62 days, they had reached Thursday Island, whence they made the voyage and landed in Queensland.

TO WOMEN OF MIDDLE AGE

This Woman's Letter Tells You How To Pass The Crisis Safely.

Lancelotti, P.Q.—"During the Change of Life I felt so weak and run down I could hardly do my work. The perspiration would pour over my face so that I couldn't see what I was doing. We live on a farm, so there is lots to do, but many who felt as I did would have been in bed. I took Lydia E. Pinkham's Vegetable Compound and it did me a world of good. I tried other remedies but I put Vegetable Compound ahead of them all, and I tell every one I know how much good it has done me."—Mrs. DUNCAN BROWN, Lancelotti, P.Q., Quebec.

Such warning symptoms as a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ear, palpitation of the heart, spots before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women, and let Lydia E. Pinkham's Vegetable Compound carry them safely through this crisis as it did Mrs. Brown.

You are invited to write for free advice.

No other medicine has been so successful in relieving women suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass.

Piles CURED in 6 to 14 Days

All druggists are authorized to supply the money-saving PAZO OINTMENT. It cures any case of ITCHING, BLEEDING, PROTRUDING PILES. Cures ordinary cases in 6 days, the worst cases in 14 days. PAZO OINTMENT instantly relieves ITCHING PILES and you can get restful sleep after the first application.

It is guaranteed by Paris Medicine Co., St. Louis, Mo., Manufacturers of the world-famous Grove's Laxative Bromo Quinine tablets.

E. W. Brown
This signature is on every box of PAZO OINTMENT. 60c.

If you are unable to get PAZO OINTMENT from your druggist, send 60c in postage stamps to Paris Medicine Co., 193 Spadina Ave., Toronto, and a box will be mailed to you promptly. Write your name and address plainly.

School Gardening

The history of Canada is largely
one of creating gardens in the
wilderness. Unlike England
where the effort is to maintain
and improve the heritage of the
past, in Canada we are laying the
foundation on which future
generations must build. The pioneer
is still a factor in our national
life and much spadework remains
to be done before our rural land-
scape will wear the finished ap-
pearance of the English country-
side.

Improvement in the village and
rural schools is one direction in
which there is a big field for en-
deavour. "Where there's a will
there's a way and what can be ac-
complished even in the face of
very discouraging natural diffi-
culties. One can easily imagine
how beautiful the grounds of this
school would be in a few years if
a few trees were planted and part
of the grounds laid out into gar-
den plots.

Education emphasizes the fact
that the chief object of school
gardening is to broaden the chil-
dren's minds, the growing of a
few flowers and vegetables being
only a secondary importance.
The layman is likely to be most
impressed with visible results.
From either point of view, the
establishment of school gardens
is a work of conservation, for it
leads directly to higher develop-
ment of the nation's greatest
natural resource, the soil, and of
its greatest human resource, the
rising generation of girls and
boys.

A Boon to a Town

The fifth of the series of the
Lyceum Course took place at
Chinook on Tuesday, Feb. 8. The
previous numbers have all been
very good, but this surpassed
them all, when the "Mozart Quar-
tette" gave their miscellaneous
entertainment. This Quartette
is composed of four accomplished
ladies, who entertained the audi-
ence for one hour and forty min-
utes. There was that judicious
mingling of pathos and humor
which kept the attention of the
audience throughout the even-
ing and brought much applause
and many encores.

Those from Chinook who at-
tended cannot say too much in
favor of the Lyceum course, and
would like to see this class of en-
tertainment brought to Chinook.

for it is a great boon to any town.
It brings the choice of our coun-
tries talent within reach of those
who have not the privilege of our
larger cities, and affords enter-
tainment of the highest and pur-
est kind at a very reasonable cost.

An Appeal to Lovers of Music

Dear Friends:—We would like to
make another effort to stimulate
your interest in our choir work.
Not only as a church body but as
a generally helpful agent. We
don't make any pretence at high-
class oratorios, but are sure that
we can help you and equally cer-
tain that you can help us. It is
so discouraging to make appeals
for help and be turned down cold
most of the time, and then have
to listen to comments afterwards
of our poor efforts to make the
best of things.

Now everyone knows that any
musical organization, in order to
be successful, must practice, must
stick together and have the sup-
port of everyone. You go into
the city and find it is an accom-
plishment to belong to a choir or
a musical society. But our small
towns are out of luck because they
are on a smaller scale, unless the
people happen to remember that
they are fond enough of a good
thing to make it a success even
on a small scale.

Now it is simply impossible to
have a choir without members,
and in a town with as much mus-
ical talent as Chinook, it does
seem queer that we cannot do
something worth while. It has
been done in the past, and surely
can be done again.

So dear friends, if you have a
voice to sing with, come out and
help. Perhaps you don't care to
join the choir without an invita-
tion. In that case if you would
let Miss Roberts, assistant at the
postoffice, know that you are fond
of music and would be willing to
help to make our choir a success,
I will see that you have an invita-
tion.

Now please don't read this
letter and pigeon hole it. A
community without a church is a
disaster, and a church without a
music is a failure. We depend
upon your interest and your val-
ued help.

Very sincerely,
W. M. Miller.

"Hearts of Humanity" Coming to Chinook

Friday, Feb. 25th

"The Hearts of Humanity,"
which will be shown in Chinook
on Friday, Feb. 25, is the biggest
picture production in ten years.
It is a romance of the great war
and a story of love which passes
all understanding. This potent
pictorial drama shows with faith-
ful regard to detail the practice
of the Hun army chiefs. Feat-
uring German offensives, thrilling
trench fighting, that makes your
hair stand on end. A machine
gun nest in full operation. This
is an appealing story of a mother's
love and war, depicting in sacrifice
of a Canadian mother who glories
in the death of four of her in-
fants to the cause of humanity.

Village Council

The regular meeting of the
Council took place on Thursday
evening. After dealing with com-
munications and passing accounts,
a somewhat lengthy discussion
followed on several topics of in-
terest to the town, viz: sidewalk
licensing of restaurants, drawing
up a by-law to control the nature
of any buildings to be erected,
fire protection, and beautifying
the town. It is the intention of
the Council to set aside a special
day for Clean up day, and if pos-
sible, to engage the help of the
citizens in a general effort to
beautify the town in the planting
of trees, the painting of resi-
dences and the making of lawns
and gardens.

Come to Church On Sunday!

Commencing next Sunday a
series of sermons will be preached
subjects of which are of vital in-
terest to everyone in the com-
munity.

Feb. 20th—"Why I go to Church."
Feb. 27—"Is the Church a Failure."
March 6—"The Church and its
Relationship to Politics and
Business."
March 13—"The Church and its
Relationship to the Home."
